

This is a Revised Recommendation:
Upon review of the pathology report
from your colonoscopy:

Patient Name: _____ Date of Birth: _____

Referral Physician: _____ Date: _____

Dear Patient,

During your colonoscopic exam performed on _____, polyps were removed
and analyzed by our Hospital's pathology department.

Based upon this report, the type of polyps removed were found to be hyperplastic.
Hyperplastic polyps are benign growths that do not turn into cancer.

This is good news, and the Doctor has revised
the recommended date for your next screening exam.

Final recommendation for future exams:
Repeat Colonoscopy in _____ years.

These recommendations are based on American Cancer Society Guidelines.

If you have any questions, call our office at (248) 557-9650.

If you develop symptoms of rectal bleeding, abdominal pain, or a change in your bowel move-
ments prior to your next exam date; call our office and make an appointment to see the doctor.
